

Pinnacle Smart Thermostat

The Pinnacle Smart is an intuitive programmable thermostat used to control underfloor heating. It will keep a home at a comfortable temperature whilst minimising energy use. Install the app on your smart phone to control the heating system remotely with the WIFI thermostat.

An app is available in the Apple App Store and on Google Play. Within the App you can program and adjust settings. To control different rooms additional thermostats can easily be added.

Besides the Wi-Fi connection this thermostat can also operate as a standalone unit. It is fully programmable with the easy user interface and touch buttons.

Also, an Open Window function is included. When the temperature suddenly drops, the thermostat will automatically switch off preventing additional electricity costs.

All Pinnacle thermostats come with a 2 Year warranty.

Benefits:

- No Hub required
- Touch screen operation
- 7-day, 6 period programmes
- Open window switch off
- Sensor setup
- Frost protection mode
- Screen Lock
